Empowering Change for the Next Generation

Modern transportation is experiencing its biggest breakthrough since the 20th century, yet our next generation is still learning about vehicles that belong in the past. **It's time for a change.**

A fun read for both kids and parents who want a modern transportation-themed book, "Are You An EV?" teaches children about the exciting world of electric vehicles. Discover real-life electric vehicles and charging technology already deployed in the US and around the world, through a simple and relatable storyline. Filled with popping rhythm and beautiful illustrations, "Are You An EV" will broaden children's understanding of electric vehicles in modern transportation, while imparting early lessons in self-confidence and community.

The Journey of a Little EV

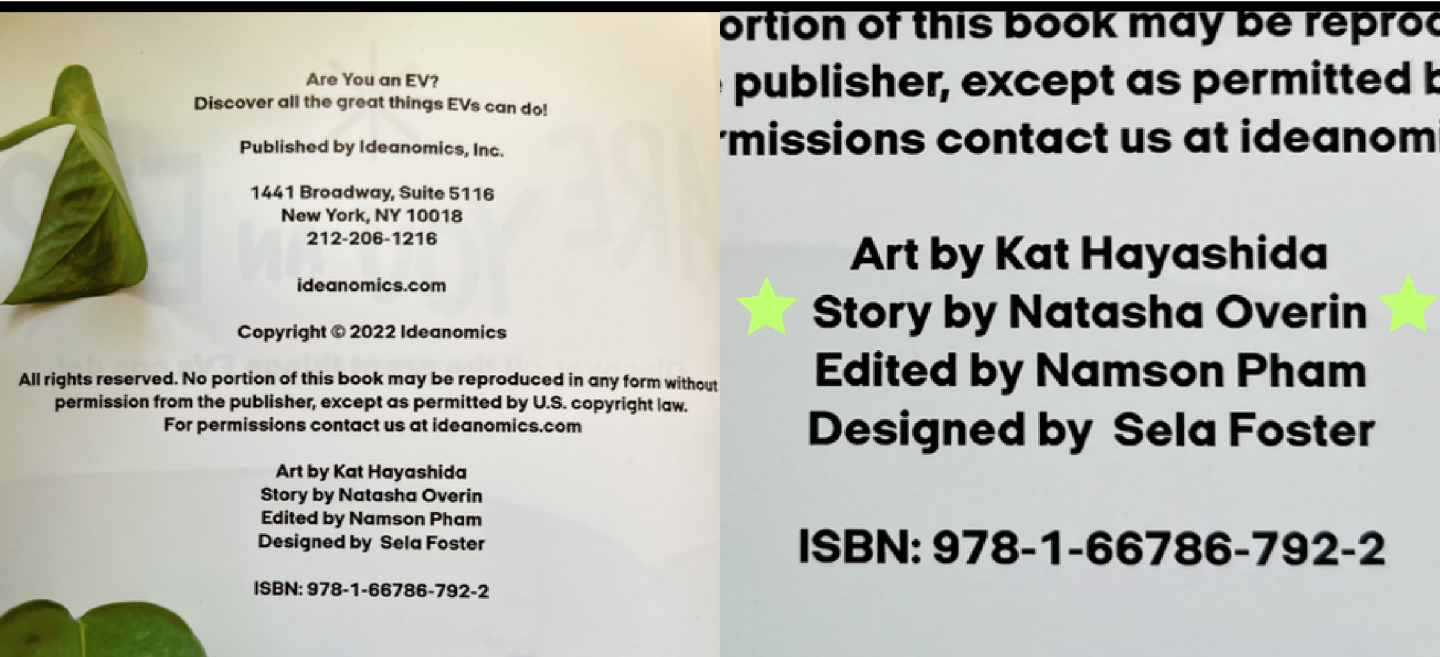

"Are You an EV?" follows the journey of Evita, the only EV in her city, otherwise full of internal combustion engine-powered (ICE) vehicles. Feeling sad about being different, Evita embarks on a journey to find others like her. From electric delivery vans to electric two-wheelers to electric cars powered by wireless and plug-in chargers, Evita uncovers many things EVs can do. With her new EV friends, Evita is empowered with confidence to help change the world for the better.

Evita was different from other cars in her city.
She was the only one powered by electricity.

Blaire, Mika, Suri, Victor, and Evita, set out anew,
to find more great things EVs can do.

They saw a truck hauling a big load with ease.
"Hello!" said Evita. **"ARE YOU AN EV?"**

"I'm Trayton the Truck, and I'm a Hybrid EV
that's best in my class.

I run on both electricity and natural gas!"

"I can travel up to a thousand miles per fill.
Efficient and clean, I save on the bills."
